

Cannabis Liberation Day

Saturday 28th September 2019

Hi my name is Free, Free Cannabis, and for the past 23 years I have been very publicly, and openly sharing free Cannabis. The first event took place on Saturday 28th September 1996, the 68th anniversary of Cannabis prohibition, when Howard Marks and myself shared free hash cakes from Hyde Park, Speakers corner. This event was part of a 'National Turn Yourself in Day' in which I had made a prior appointment with Marylebone Police station to be arrested for the distribution of free Cannabis. However, the police refused to arrest anyone.

Howard and Free outside Marylebone Police Station

As the police refused to arrest me on this day, I went on to launch the Free Medical Marijuana Foundation in May 1997. FMMF was launched by standing outside the Department of Health, and distributing free Cannabis to medical patients. I continued to run the FMMF until 2004, with no interference from the Police.

I ran a series of Fully Liberated Cannabis Picnics in Hyde Park, from 1996-2000, and since moving to Glastonbury I have been increasingly high profile in my sharing of Hash Truffles at various events, such as Beltane and Solstice.

In 2014 I started selling Hemp flower extracts from my Hemp shop, 'Hemp in Avalon'. They contained varying percentages of CBD and no more than 0.2% THC. At first even I was a bit skeptical if taking a daily dose of 10mg of CBD and a trace amount of THC would have much effect. However right from the start the feedback was phenomenal. Yet for those in acute pain I sensed a higher level of THC would be more beneficial. So to mark the 89th anniversary of Cannabis prohibition I decided to hold a 'Hemp Aid - Pop Up Cannabis Dispensary'. On this day I shared an extract containing 43% CBD and 25% THC to over 100 people who were experiencing pain, twitches or spasms. The feedback was amazing. The most profound for me was a lady who was wheelchair bound for three years in crippling pain. She took the 'Hemp Aid', and within an hour she was up and gardening.

She remains mobile with a new lease of life since discovering the healing balm of Cannabis. And 'the government' claims 'Cannabis has no recognised medical value'.

In November 2018 'the government' announced that it would 'Legalise Cannabis for Medical use'. So what does this mean? The reality of the situation is this. As of July 2019, at a talk given by Prof. Mike Barnes, he stated that 44 prescriptions have been given for 'Legal Cannabis'. The first was for Alfie Dingley, a young epileptic boy who has been the only person to get an NHS prescription for Cannabis. A further 17 children have received Epidiolex to treat epilepsy on private prescription. The remainder have paid £200 for a private consultation at 'the Beeches', currently the only 'legal' Cannabis clinic. They then pay £15 a gram for Bedrocan. Costing less than 5 euros at source, it is factory grown in Holland under artificial lights and then irradiated with Gamma radiation. Street name is 'Jack Herer' (Northern Lights # 5 x Haze x Shiva Skunk) with a THC level of over 20% and less than 1% CBD. By the government's definition this is 'Skunk'. Yet the government claim 'Skunk' is not medical Cannabis. What the hell is going on?

'Government' approved 'Medical Cannabis':

Strain Review

Lineage
Sativa Dominant Hybrid

Cannabinoids
THC: 22%
CBD: <1%

Aroma
Sweet Lime Pine

Terpenes
Terpineol Myrcene Pinene Limonene

Bedrocan

Irradiated 'Skunk' at £15 per gram

Personally I find this situation to be totally unacceptable, and this is why I will be holding a fifth 'Hemp-Aid - Pop up Cannabis' dispensary on Saturday September 28th. I will also be sharing Hash cakes and truffles along with Hempoetry to Hempshire and Hempucate people about what director of Research and Development at the International Cannabis and Cannabinoids Institute, Dr Ethan Russo describes as **the single most versatile herbal remedy, and the most useful plant on Earth.**

I will also be explaining how 'HER MAGESTYS GOVERNMENT' went bankrupt on 10th December 2008 and is now trading as 'HM TREASURY', a wholly private corporation which is fraudulently channelling tax payers money through it's HMRC's (also a private corporation) 08-32-10 Shiplely Account to an American Financial Institution.

It's High Time to...
